REDS BRING SUIT AGAINST GOVERNMENT

No. 34616.

Protest over purge of Communist leaders

DECLARATION

Japan's Communist Party this afternoon filed a suit against the National Government for carrying out General MacArthur's order purging 41 top Communists from public-life.

Trawlers make contact with warship

Taipch, June 16. Press reports claimed three trawlers, which left Hong Kong early this week, had made radio contact with a Nationalist warship.

The trawlers defected to the Communists several months ago. Their | departure from Hong Kong was made with undisclosed intentions. Some reports said tho trawlers were heading for Japan. Others claimed they were bound for Keelung, port of Taipeh, to rejoin the Nationalists.

Trusteer for Rehabilitation Al not quite clear have whether three or four wers involvedbelonged to BOTRA (Board of Trustees for Rehabilitation Af:

BOTRA was formed to handle equipment and funds transferred from UNRRA, the United Nations organisation which terminated Its activities in China at the end of 1947.

If the trawlers rejoin the Nationalists it will be an important propaganda feather in Taipeh. But at the moment, it is by no means certain that this is their intention.

The Nationalists, however, were expected_to__make...every_efforth possible to win them over .-- Associated Press.

Paris, June 16. Open charges that two men killed in the Skymaster crashes at Bahrein, in the Persian Gulf this week, died because they knew too much about racketeers in Indo-China, were made by the

newspaper "Franc Tireur" today. The two men mentioned by the paper were Francois Jean Amorin, the newspaper's reporter in Indo China, and Exchange Inspector, Rivet.

Amorin wrote to the paper that three men who ran a chain of gaming houses and brothels and paid Vietminh Nationalist insurgents for protection, had threatened him if he told what he knew.

Rivet was carrying a full report on the smuggling of dollars beiween France, and Indo-China. Amorin had appolally named Mathleu Franquini, who owned | phic.' the Continental Cafe in Salgon

lea that China's school-text-books should beravised to make them child-centred sinstead of State-centred as at present, was made by Mr. Wu Hei-tak, MA, noted educationalist, in his address before the Sine-British Club of Hong Kong yesterday.

Education should not be placed in the hands of statesmen using education to further their immediate and narrow aims, said Mr. Wu.

Mr. Wu was addressing the may be merely a traveller's im-Elirope in Chinese school text- Paris' is mentioned, its so-called books, a subject on which, he extravagant life is brought said, he had spent some time as an neademic exercise, for between 1947 and 1949 initiated an inquiry into Scientific and Cultural revise; and improve text-

He sold his talk would be confined to Europe only due to time

The large audience were intensely, interested by Mr. Wu's clear and concise picture of how Britain and the British in partleular, and Europa in moneral, presented to the Chinese school children by the compilers of China's text books.

School text-books used in China after the last war were purchased capacity; (a) the highest capacity ment of Nationalism has the through the Chinese Ministry of work of communication lines; and mocracy, Christianity, Imperialism Education, Mr. Wu drew his and- (1) the strongest fighting services ings from a collection of 96 series consisting of 312 volumes covering six school subjects.

Mr. Wu said he could only deal political and cultural activities with the text-books on geography the text-books, Mr. Hu took the and history within the time set British Isles as the first example. for his talk. His analysis would in the 'description of 'political be both quantitative and qualita- power, and institutions, the ten-

Europe was given most space of the British Isles; but also in In China's school text-books, that of other countries, is to use though one would expect Asia such phrases as "one of the five to be the most prominent in this powers," the "second largest" and The average space so forth, and the effect on the allotted to North America it attitude of the children could be one-third of a strong desire to make Ching the that for Europe, which again is biggest and most powerful nation interesting, bearing in mind their strong American influence in British Empire" is referred to the educational field of China almost all, texts, but at the same before 1949.

Of the space allotted to Europe, aggression by Britain and the British. Isles' occupies 12.4 mention of real and more sinister per cent, which is the highest, policies adopted by others. with the Union of Soviet Socialist Republics a close runner-up at 1928 were, however, much milde 11.9 per cent. Germany received in this respect than those publishmore attention than France, their ed after that date, commented percentages being 0.9 and 8.1 per Mr. Hu. respectively.

However, priority of space res ved after 1028 says that before the veals only one single aspect of fluronesis was Britain was the European War Britain was the a country's attitude towards certain regions or topics; and far more important than this is the quality of the content and form of their treatment, said Mr. Wu glons of the world. as he launched on a qualitative . In connection with the expananalysis of China's school geo. sion of the Empire the compilers graphy books, adding that these usually put in the description of the the British treatment of her

In this respect the speaker de- sion gained by the reader is that cribed, the difficulties, of the the British are clever in controll-Chinese compilers, the first of ing the dependencies, but owing which its the official nims of to the changing conditions of the which have world, she finds it-difficult to cope never been particularly liberal in with the tendency towards dissenthe sense that they have been sion. The separation of Elre is State-centred rather than child-mentioned frequently and is re-

aims set forth time and again seem to be quite disinterested, but the notion of a strong, mationally conscious China in the battle of survivalchas always been a dominant" 'note, which; to the ensual observer, may be lost in a descant of moral education personality development, or similer Educational ideals. But the educational raims as defined by the First National Educational Conference beld under the new Nationalist regime in Nanking in Principles of the People, the first protection in international trade. Inot, however. account for of which is Nationalism," said Mr.

Linguistic difficulty The next difficulty, continued Mr. Hu, is linguistic, Many Chin- for their mutual beneat, there was the nulbers have the habit of a centrifugal tendency, and when using hyperboles and other figures the Second World War broke out of speech which may be mislead- her conditions were extremely ing to the unwary readers. Other serious. Forhunately, the situation difficulties, are the limited space was saved, and Her strength reoffered by the text-books, and gained, thanks to the all-out the bad printing facilities, all of assistance of the United States of which tended to render googra- America. phical descriptions unroal, insenmuve, inaccurate, and inadequate :: Eufope is riferred to not only For instance, sald Mr. dealing with elimate, most of the primary school texts are full of generalisations and vague abstract am of two text-books make an attempt to factual account of the control or present a fuller account, but un Bowers in Asia, Africa and so on. fortunately suffer from the very The other is tinged with political serious fault of determinism is sentiments.

midddle texts mention thi subject in the treatment of national defence. They say the loss of Hong Kong and other places hampers China's defence In the Bouth. One book compares the loss of Hong Kong with letting "others' eners in their steep by one's bodelde." State-edited-text says that alle the Gecond World War Governmont should ask Brital to rollingulah it voluntarily.

Drawing bis conclusions from this geographical analysis Mr. Hu said the nature of the material is while the more purely geograprodominantly human, but bolitical considerations play too great Too much space is spent on 'Tho most interesting treatmen

people, their history, political cultural activities, and the result: are in general not conducive to nternational understanding They are admired for their good quallties, but their netivities outside Europe 'do not receive the same

Mr. Hu tilbks this treatment of Europe is inadequate: the wron things are often smphasised while Hur with a smiler to learn that the purely mographical treatment suggests that future . geography books in China should be more The relisons given in, one text genuinely geographical.

Turning to China's fext-book density of a population: manufacturing on history Mr. Hu said the treat-Hong Kong, but before that for work: (d) the greatest amount largest space allotted, and it were procured - largely of capital: (e) the densent net followed by references to Deand Science in descending order. It may seem strange that Imperialism and Science are accord a relatively low priority in view of the fact that the Chinese have been-quite vehement in denounding the former and enthusiastic in espousing the latter, at least in

> principle. not! only in the treatment In view of the wide field each of these five topics and of generally controversial nature. Mr. Hu said he' would describe only Imperialism and deal with the others in passing

> > Despite the small space allotted to this itopic, said Mr. Hu, it is probably the most important factor in determining the attitude of the Chinese pupils towards Europe owing to its strong appeal to the emotions.

Imperialism is described in one text as a foreign policy of industrially developed nations aiming at seizing the countries or territories of backward races. monopolising their hatural resources, trade, and the privilege "investment "within boundaries to develop their ria tural resources.

This definition is followed by a paragraph depicting the missionaries as the vanguard of Imperiation. Besides spreading it the "Gosper" they have said to be Introducing scientific concepwritten language. Introducing Manife today. new medicine. aducating mil lions of students, and also creatling a domand for Western cammercial goods, thus opening a highway for International trade. Imperialism, however, is not

regarded as the result of any evil trait in the European beople, for most compllers have not failed to trace its causes to the Industrial Revolution and a developed form a political policy of limited of capitalism. In one text Nafreedom, retaining . I the real tionalism is said to have hastened power in the dependencies and its development.

an aconomia policy of controll. One senior middle text says ing the raw materials of the "The development" of modern Colonies and the development European civilisation leads to the of the markets, so as to strong. heavy oppression of the then the metropolitan power proces which suffer from the fate But, says the welter, such a jot losing, their countries polloy can no longer be carried homes, and cometimes even being confidency winter out."

Report on

HKSPC A comprehensive report on Protection of Children's three Antiquities to view the Collec-Thursday by Miss A. M. Bal- cept Mr. Yeung's offer, lantyne, Principal Almoner, Hong Kong Medical Department.

in this capacity that she made her report.

in the Sut Ying Pun area Miss Kong. Ballantyne said that the centre was dealing with an average of 50 cases a day and there were approximately three new cases each day,

The staff at this centre consisted of an inspector, who was a trained nurse, a boy, and an amah, and the visiting inspector called twice a week to give lectures to the mothers.

The accommodation in which this work was done was suitable but not large enough, and the mothers waiting room was overcrowded.

Speaking of the Eastern Centre good, at Happy Valley she said that the variation of quality among the centre had recently moved into various items and he therefore the police were summoned. The new accommodation in the Playgrounds Association's new build-

proximately six new cases a day out conditions for \$48,000. The staff at this centre was the the Governor-in-Council and by same as at the Western Branch much larger than the others two ceptance of Mr. Jenyns' proposals, centres and here the whole and an offer to this effect was family was looked after. Children made to Mr Young last July. and nursing mothers were given

.Not only did the mothers bathe the hables at the centre but they "Mr. Young in his reply exadequate during the summer months.

The Chairman, Dr. F.I. Tseung, thanked Miss Ballantyne for her excellent report.

The Incorporation of the Soclety was also discussed and Mr. J.T. Prior reported that the draft was now complete. It was decided to hold a General Committee meeting on July 20 to discuss and approve this matter.

HK Rifle **Association** decisions

The Council of the Hong Kong Rifle Association met on June 12 to discuss various administrative details that must be arranged concerning membership, subscriptions, expenses, etc.

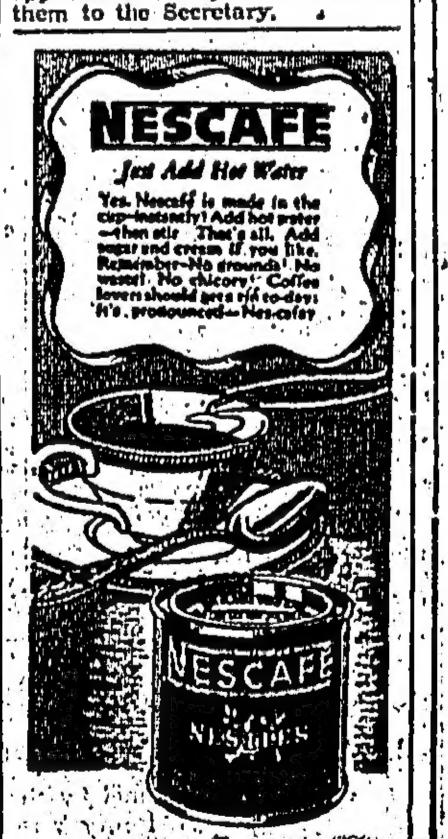

These will necessarily entail considerable thought and preparation, and a Sub-Committee has been appointed to deal with all HKERC: T. Pilkington, C. J. As-points in detail. It has been agreed that this Sub-Committee (skip); R. Wilson, A. E. Jones, T. should bring its recommendations H. Goodman, C. Pope (skip); J. before the Council towards the

As soon as the different points' have been approved, the decisions of the Council will be made public, and will consequently give i a lot of required information to potential members.

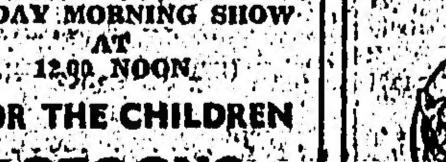

So far the Secretary has received several letters, telephone calls and messages from interested persons, some of which give useful suggestions.

Entry forms It is not, however, possible to answer these letters until certain definite decisions have been made to waste no time in writing to the Secretary (Captain A. D. H. Jones, IRC_2nd Division_(away) v. Hong Kong, Telephone No. 58639) RM—Stonecuiters Rifle Range as it is essential to discover early the number of people who are interested and to hear their ideas.

All those writing to the Secretary will receive entry forms as soon as the details referred to above have been decided upon. If any pre-war members have copies of the Old Hong Kong Rifle Association Handbook, which they would be prepared to lend to the Council, it would be much appreciated if they would forward

The Times on Arab politics

London, June. 15. The "Times," in a leading article on the Arab League now meeting in Alexandria, predicted today that the Arab States are bound sooner or later to react against the fruitless gesture of refusing to recognise the new Israel.

The League has split into fac-tions, led by Egypt and Transjordan, on policy which the Arab States should adopt toward Israel, The Far Eastern Commission the "Times" said, held its bi-monthly meeting

GOVERNMENT WATCHING JAP TREATY ISSUES

Manila, June 15.

The Philippine Government is watching the question of calling a Japanese peace conference with heightened interest in connection with Ner John Foster Dulles trip to Japan and the Washington report that a draft of the treaty may be ready by September.

Government officials believe a treaty with Japan should have been concluded long ago. If a peace conference were to be convened tomorrow the Philippines would be ready to attend. All the necessary documents for presenting the Philippine position were prepared long ago, according to an informed source.

Philippine position regarding the Japanese peace treaty has not changed from the original' view that basically Japan should be domilitarised and democratised to prevent her from ever again becoming a threat to the peace of the Far East.

cerning a poaco conference, inerensed interest is being shown no definite stand would be taken separate treaties and the appoint- until the views of the conferces Headquarters ment of Mr. Foster Dulles to con- and people were known. MOTORING NEWS AND VIEWS

WHAT IS IGNITION?

Before the first world war, comparatively little was known about the ignition of gaseous mixtures and during that war work was carried out under the auspices of the Technical Committee of the British Ignition Apparatus Association, to establish the manner in which such ignition was produced by an electric spark.

One school of thought favoured the so-called "fat" spark, or "arc" spark, the predominant feature of which is a low voltage are of relatively long duration.

Another school believed that the "capacity" spark of very short duration, but of great energy, was the true igniting agent.

"Although certain obscure therefore, the energy which must points have yet to be cleared up," be supplied to it, depends upon a large number of factors such as the Automobile. Division I. pressure, temperature, mixture Mech E., said, Two now have a ratio, chemical properties of the satisfactory picture of the whole gas, and cooling effect caused by This he outlined as the presence of cold electrodes or

The former, usually lasting one gas, the relation between energy stantaneous current which may be of the order of 50 amperes, while the latter may last a milliscoond or more, being usually of the order of 50 milliamperes.

and mixture ratios is a U-snaped curve, the legs of the U being so nearly vertical that a very large increase in spark energy will make very little difference to the range of mixture which can be range of mixture which can be

energy is that associated with the The inductance component or capacity discharge, an increase flame consists of energy stored cannot be obtained by altering the magnetically which can be only characteristics of the magnetic circuit, that is by making the spark "fatter."

The only way to increase the duces ignition, but the phenome- electrostatic energy is by increasnon is a purely thermal one and ing the gap length so as to inconsists in heating a small por- crease the breakdown voltage, or tion of gas to a sufficient tempera- by increasing the capacity of the

.The former method is the usual one and is to be preferred, because increasing the gop length Theoretical work supported by experimental evidence shows that there is a minimum volume of gas which must be heated to this temperature in order to make the control supply.

The greatest need for large plug gaps and high spark energy will With high compression ratios Austin had 785 and Ford 153, much smaller plug gaps are in general satisfactory and desirable.

The work carried out by the Technical Committee also made it clear that the spark characteristies had no effect on the subsequent propagation of the explosion or on the power developed by the engine.

Provided the spark energy was sufficient-to-give-consistent and regular ignition there was no point in increasing it any further. The position is different during starting conditions when dealing, not with the truly gaseous mix-ture, but with a cloud of droplets

which must be evaporated before they can be ignited. In the this case an appreciable time is necessary for their evaporation and, if the spark is of too short a duration, its energy may be so degraded by the time the droplets have evaporated that ignition of the vapour may not

On the question of coil or magneto ignition, Dr. Watson said that apart from its one great advantage — its independence of the battery - the magneto has little to recommend it.

Exaggerated

gives a better performance under starting conditions is somewhat the price of second-hand care!"

exaggerated, as under starting conditions with the starter in operation and the battery voltage correspondingly reduced, the coil performance is reduced also, but of light delivery vans. in favour of the coil unless a very large magneto is fitted or

an impulse starter provided. The great advantages of the coil and distributor system are that a small amount of power in required to drive it and that the distributor can be driven at cam-

from noise, while the low power order that alternative bodies can and small moment of inertia be made available for different means that it is possible to fit a types of work. In addition to simple automatic advance mechanism giving any desired relationship between speed and igni-

tion advance. Furthermore, a suction-operated mechanism can be readily incorporated so as to give any desired relationship between advance and manifold depression. This feature is of steadily

growing importance, particularly on cars with a good power-weight ratio, where the engine is nor-mally operating under part-throttle conditions.—The Autocar.

CAR . REGISTRATIONS IN THE U.S.

Austin and Ford achieved the largest number of registrations of The well-known Morris inde-British cars in the U.S. during dependent front suspension sys-

Some 3,642 Austin cars were registered compared with 5,087 Ford (Anglia and Prefect) cars. The figures for 1948 stood at 8,610 and 3,223, respectively.

Comparative registrations in certain States are interesting. For instance, in Illinois, Austin registrations came to 40, whereas Ford had 453 cars registered; while in New York, Austins registered 869 cars and Ford 42.

REPORTS OF

The following dispatch was written especially for the United Press by General Carlos Romulo, Philippine Secretary of Foreign

By CARLOS ROMULO

Washington, June 15. Reports in the American press reaching us in the Philippines concerning an alleged imminent collapse of the Philippine Government are at worst fantastic and at best exaggerated.

have lived for a long time in the United States and have been a journalist for more than 20 years and I can understand how such reports read in the context of a world in crisis may sometimes assume the character of exaggerated alarm.

have just arrived from there (the Philippines) after acquainting myself with local conditions more intimately than usual as Secretary of Foreign Affairs in President Elpidio Quirino's Cabinet.

I wish to assure our friends in l -America that the -present-Government of the Philippines is in |no danger of collapse but that on the contrary it is bravely and consistently pulling itself out of the deep morass into which war and occupation have thrown it.

should not be the cause for won- in armed forces and in the Govder. And, as in this country, we ernment as a whole is being grado take credit for the fact that dually restored by such measures such abuses have not been hid- as reorganisation of the Governden or condoned, but have been ment, dismissal and punishment exposed freely to public condem- of dishonest public officials and nation and to severe and swift the establishment of an integrity

stant criticism. This is because officials. our press is free and public opinion untrammelled. We have no censorship of any kind and United States with a difference in President Quirino has pledged our favour that it has nothing to that there shall be none so long do with politics or political beas he is President. We have believed that it is better to err on the side of freedom than have little things, could ultimately encivil liberties.

Impatient call

Such criticism arises from an Impatient call for swift action on matters which often lie beyond the present competence of the Government. People, who would not be an isolated action. have lived through danger and chaos for four years of Japanese after liberation are perhaps ontitled to such feeling, of impatience.

and had the Republic been born | The Philippines need help from into a world disposed to return the United States and from other to 'normal pursuits, the Philippines would have recovered more rapidly than it has. We have rich natural resources. Some of our export products are in heavy demand in the world markets and under normal conditions would have rebuilt our warshorter time than it will take us under existing conditions.

The Philippines is part of the alling two-thirds of the world and its problems are not made under just and honourable condiany easier by its proximity to a tions. shooting war in Asia and to a "cold ' war"r everywhere. have a group of well-armed dissidents whose original battle cry was for agrarian reforms but who of the Philippines .- United Press. have since shown themselves to be partisans of the Communist movement that is sweeping down to South East Asia from the North.

They were given arms by the American liberation forces to fight the Japanese and promise of amnesty has not induced them to surrender their weapons and seturn to peaceful ways. forms which would have medied their grievances are not taken advantage of because they have been taught by their leaders that actual seizure of power would give them far greater ad-

U.S. Justice Dept. cleared Amerasia case

New York, June 15. The Federal Grand Jury which conducted the "runaway" examination of the 1945 "Amerasia" stolen documents case, reported today that it had found no evidence indicating that the U.S. Justice Department was remiss in its prosecution.

India worried over sale of U.S. munitions

Washington, June 15. India has expressed to the United States concern over the continued large-scale sale of American munitions to Pakistan. This feeling was conveyed to the Secretary of State, Mr. Dean Acheson, by the Indian Ambassador, Madame Vijaya Lakshmi Pandit, during a 30minute call this afternoon.

Madame Pandit, it was disclosed by sources in a position to know, asked Mr. Acheson just what is the United States' position regarding the licensing of muni-

Mr. Acheson replied that it was entirely a matter of priority and he __understood __that __Pakistan about three months ago, had been given priority permits to buy and ship from the United States certain materials of war. These weapons, according to State Department records, are classified as "defensive" types, which include land mines and other explosives of that type.

Mr. Acheson pointed out to Madame Pandit that Pakistan was given no permission which had not also been given to India.

Madame Pandit's visit to Mr. Acheson came on the heels of conforences, here between the State Department and the Pakistani Foreign Secretary who, it was understood, has been trying to obtain increased priority for arms shipments to Pakistan.

It was emphasised by all quarters concerned that neither Pakistan nor India had asked for gratultous shipments of Ameri-The Bundestag, Lower House of can arms. Both are willing to pay the German Parliament, voted for whatever they can get.-United Press.

> London, June 15. Britain's Labour Government tonight scored a 10-vote victory over the Opposition, defeating an attempt to abolish the tax.; on commercial vehicles by 295 votes to 285.—Reuter.

Delicious DIANI

The 23-member Grand Jury disclosed in a presentment that it acted on its own authority in inquiring into the Amerasia case. It said it had not been able to conduct as exhaustive an inquiry as it desired.

Grand Jury had concluded that the Office of Strategic Services which precipitated the Amerasia ease, acted in a responsible manner. Some of the 1,700 secret government documents found in the New York, offices of the "Amerasia" magazine, were turned up in an OSS raid in March

The FBI on June 6, 1945, entered the magazine's offices equipped with arrest warrants but without search warrants, and confiscated more of the docu-

The Grand Jury said the FBI properly performed its duty of bringing criminals to justice and protecting . national There is no evidence, the presentment'said, that any official acted improperly in regard to a delay in the arrests of the six persons accused in the theft of the documents. The delay referred to was a matter of about three months after the OSS raid.

The case was recently revived in Congress on charges that the Administration delayed arrest, and the prosecution was not pushed vigorously.

Following the Jaw

The Grand Jury said if the laws governing espionage had been different, prosecution procedure would have been entirely different. It said, among the factors which the Justice Department had to consider were certain legal procedures which, If followed, might have revealed to the enemy information that it was essential should be withheld.

The presentment said the case was a demonstration that precautions against theft (of documents) from governmental departments were entirely inadequate.

It added: "The Grand Jury belleves the American people, have been poorly served by the compounding of confusion through the disclosure of half-truths, contradictory statements etc. in this

and similar cases. "It would be salutary if the Department of Justice would issun a public statement of the detalls of its handling of the case, beginning with the time of the

The Grand Jury's 18-month arrests and including a complete On Sale at term expired at midnight. The list and description of all docupresentment was handed up to ments or papers found in the office Federal Judge John Clancy who of Amerasia by any government impanelled the Jury on Decem- agent or in possession of those ar- Grocery rested, and the reasons for the The presentment said the various steps taken by the pro-

Procession of the Debutantes

Debutantes are seen coming down the staircase into the ballroom of London's Grosvener House to the march from' Handel's "Judas Maccabaeus" when they attended the filrst post-war Queen Charlotte's Birthday Ball. Some 200 debutantes attended the ball, which was held before Britain's National Health Service was inaugurated to provide funds for Queen Charlotte's Hospital .-- AP Photo.

Emphasis, on

London, June 15. The modern novel will be dead within 50 years, in the opinion of one of Britain's foremost authors.

Uninhibited descriptions of sex and over-use of · four-letter words will help kill it, he said.

written 70 books, including 35 Mackenzie looks the typical novels, also maintained that country aristocrat, in baggy Freud was a tremendous blow tweeds, faded sweater and slouch to fiction.

"Psychology has become a mere substitute for experience," he

with too many passive amusements, to provide either good novels or a novel-reading public," the 67-year-old Scottish author observed in an interview ut his country home.

Laziness blamed

In the terms of "Alice in Wonderland," he said, "You wonder sometimes (whether the White King is part of Alice's dream, or Alice part of his dream.' "The free, uninhibited descrip-

tion of sex and impulse, four-letter words, comes from the same laziness," he said. "It will help to kill the novel.

Compton Mackenzie, who has moustache and Van Dyke, Mr.

He is not jonly a novelist. dramatist and magazine editor. but also a political historian, broadcaster, world traveller, and "Life has become too comfort- supporter of Scottish, Irish, and Welsh nationalism.

He made good

Mr. Mackenzie's chief dislike is the aspiring writer who thinks people owe him a living.

"He ought to prove himself before he demands support," Mr. Mackenzie sald.

."I went through it all myself. At 24 I wrote my first novel and swore I wouldn't write another word until it was published. That tock three years, so I got married and raised daffodils while

· Today Mr. Mackenzie has a fine "I see no future for writing crop of daffodils, an enviable without frestraint. You lose in- library and record collection, and tensity—and the public has a comfortable estate—tangible even got over being shocked." evidence that he knew what he Silver-haired, "with a small was waiting for.

FORGOTTEN ISLAND NEAR SINGAPORE

By a Special Correspondent Only 15 minutes by sea from busy, thriving and food-glutted Singapore, some 500 Chinese and Malay families face starvation unless aid comes from the city.

Described as Singapore's forgotten neighbour, Pulau Ubin-a little island once bountiful with rubber trees and granite quarries—is in a state of bankruptcy with most of its rubber estates and quarries idle.

. On the little island today, a little more than 2,000 people, mostly women and children, are ekeing out a frugal living waiting resignedly for help; many carrying on without hope but refusing to leave their native soil.

Pulau Ubin Itself is deterioratng physically. The thatched roofs of the several hundred have suffered under the onslaught of the elements through years, many are coming down in pieces.

Most of the dwellings are such a state of decay that visitors never fail to remark: "Why, a for their studies. The school

The foundations of certain it was revealed by an elder. houses have already sunk deep into the earth. The plank walls younger Pulau Ubin women is have warped.

one - the Police Station - are dirty-looking, ti whitewash having come off some time ago. Fungi and shrubs grow on and farms, cooking at home or oambeneath the premises. .

POP

About 500 of the island's 700odd male population have migrated to Singapore to look for work. The others, mostly elderly folks. have remained behind in the

No school

The school of Pulsu Ubinonce an important landmark of the island-is a neglected site Lack of funds has forced school to close down. "Today the some 100 school children are at large on the island idle," according to the village elders.

They have no means of paying mere puff would send them self had expended all its fur is, No aid has come from elsewh re, A predicament facing

usual fortnightly band concert will take place in the Botanic A.M. Gardens. There is to be an added attraction this week with the King's Own Scottish Borderers giving a display of Highland Dancing.

In the Highland Fling there are numerous steps, but not more than six are usually danced consecutively. All the movements conform to the five positions of Highland dancing., The Dance gives a sense 10.80-Morning Medley. of wildness and abandon, but it will be noted that the movements P.M. are neat and precise. The whole dance is performed on one spot, and in ancient days the Highlander would throw his round bonnet to the ground and dance on

Much of the grace of the Dance depends on the rhythmic movement of the arms.

The Sword Dance demands endurance and precision. The dancer must keep as close in to the Claymores as possible during the dance, and to touch them is an unforgivable fault. The dance finishes with a quick and difficult movement round the Claymores, and the dancer warms the Piper 7.00-"Time for Music"-BBC Midland to play more quickly by clapping his hands.

> The Shean Truibhas, or "Old Trousers," owes its origin to an 10,10-Local News, -old-Highlander who rose from a bed of sickness and, weak though he was, performed steps which have come to be known as this dance. Being too-frail to don the Kilt, the old man donced in "Trews" (trousers). Nowadays, however, the dance is performed in the Kilt

The Reel Dance can be enjoyed by four, eight, 16 or even 32 persons. It finds its place in all Scottish ballrooms to-day. THE PERFECT

BWISS WATCH

London, June 15. After yesterday's rain, cricketers today had bright sunshine and, apart from a few minutes' holdup for a shower in one or two cases, a full day's cricket.

Northamptonshire, who are pressing the leaders, look like beating the former Champions, Middlesex, who had to follow on, but one of the most exciting happenings today saw Derbyshire snatch a one-run lead on the first innings against Glamorgan in a low scoring game with the two sides just passing the 100.

in other cases batsmen found | Sixes were also elaimed by run-gelling fairly easy and Sytellife for the MCC, he hitting Yorkshire 'gained a first linings | three as well as seven fours durlead over Essex for the loss of ling a stand with Bedser, which only one wicket and declared put on 100 in 145 minutes against when 210 runs shead for the loss | Oxford University. of half their wickets.

The Yorkshire total of 339 runs was marked by two contrasting centuries. Lawson very earfully took four and a half-hours, hitting only seven fours while compilling 112 runs, but Wilson rattled up 157 runs in less than four hours and found the boundary 23 limes. This pair put on 236 for the second wicket.

. A ninth wicket stand of 63 runs in 40 minutes between Goddard and Scott allowed Gloucestershire to take first innings lead against Lancashire. for three,

The Northerners seemed certain to have the advantage when I Gloudestershire were 40 runs short and only two wickets to fall. Then Lancashire introduced pace bowlers with the new ball but Goddard and Scott appeared to revel in this type of bowling.

A breezy knock

There was also a 63 runs stand for the fourth wicket mainly beeause of Crapps' aggression. hit two sixes and six fours in a breezy knock of 51.

Drobny given fight by

Bristol, June 15. Jaroslav Drobny, last year Wimbledon singles finalist. beat Ip Koon-hung of Hong Kong, 7-5 and 6-2 in the West of England Lawn Tennis Championships here today.

Drokny's fellow Czech in exile. Vladimiar Cernik, together with two Americans, Dorfman and A. Larsen, also scored outstanding victories.

Dorfman beat two overseas players, P. Mulloy of Austria, 7-5 and 6-2, and J. J. P. Linch, of Holland, 7-5, 6-3.

Cernik bent a former holder singles title. Sumant Misra, of India, 6-3, 4-6 and 6-4, and Larsen bent another Czech, M. Matous, 6-3 and 6-5.

women's singles, the stage was reached and Mme. Straubooya (Czechoslovakia) was among those to survive.-Reuter.

Basebalı:

New York, June 15. By the margin of a fifth inning single, lefty Billy Pierce of Chicago White Sox missed pitching a no-hit, no-run game against the world champion New York Yankees today and had to settle instead for a 5-0 shutout.

Although the little youngster had no excuses, he might well have blamed his near miss on a 43-minute shower. The game was delayed by rain that long and when the play was resumed in the fifth, Billy Johnson got the only Yankee hit as the first batter to face Pierce. Had he been warmed up better he might have retired Johnson.

all the more remarkable because the same was held up three different times by rain making it necessary for him. to keep warming up. to keep his arm loose. He walked five men, but none until-after third delay. No Yankee got beyond second base and only two reached that station.

The victory was the offth straight for the revived Chicagoans who have looked like a new team since Lollypop John Corriden succeeded Jack Onslow as munager late last month.

Three in a row Moreover, it was the first time! hat the Yankees had lost three in a row this section and the second time they had been shu
